Munich, Germany

## SUMMARY

**Full Stack Developer** with 7+ years of experience in delivering robust, scalable, and user-centric web and mobile solutions across diverse industries, including finance, logistics, healthcare, and education. Expertise in **Python (Django, Flask), ReactJS, React Native, Node.js, PostgreSQL**, and cloud platforms like **AWS**, with a strong focus on microservices architecture and DevOps practices.

Proven ability to lead teams, mentor developers, and streamline workflows through CI/CD pipelines and database optimization. Adept at driving innovation, solving complex technical challenges, and aligning technology strategies with business goals to deliver impactful, high-quality solutions.

## EXPERIENCE

### Senior Full Stack Developer

#### Limendo India

2022 - Present India

- Developed and delivered cross-platform mobile and web applications using **React Native, ReactJS, Python Django**, and **Node.js**, ensuring high performance and scalability.
- Optimized PostgreSQL and MySQL databases to enhance application performance for Kassa, a gastronomy solution for European restaurants. Contributed to Yodalytics, an analytics and automated lead generation platform for the European market.
- Designed and implemented a microservices architecture using **Docker, Redis**, and **GIT**, and set up **CI/CD pipelines** to streamline deployments and minimize downtime.
- Enhanced development processes by implementing best practices in API design, data structures, and cloud services, improving both efficiency and system reliability.

### Technology Lead

#### Financepeer (Leo1)

2021 - 2022 India

- Spearheaded the development of a SaaS platform for 6 B2B customers, enhancing operational efficiency and client satisfaction through innovative ReactJS and Python Django solutions.
- Led the creation of a prepaid credit card management system (UVA) using **Python, Django, PostgreSQL, React**, and **React Native**, optimizing financial workflows and elevating user experiences.
- Facilitated Agile practices, including sprint planning, daily stand-ups, and retrospectives, to enhance team collaboration and project tracking across stakeholders.

### Software Engineer

#### Pacewisdom Solutions Pvt. Ltd.

2017 - 2021 India

- Developed custom software solutions for clients, covering backend, frontend, and database functionalities using **Python, Django, ReactJS, Node.js, PostgreSQL, MySQL**, and **REST API**.
- Designed and deployed full-stack web applications tailored to client needs, enhancing operational efficiency and introducing innovative features.
- Managed a web application for a medical industry client, showcasing expertise in **PHP, Laravel, MySQL**, and **REST API integration**, leading to improved customer engagement and subscriptions.
- Collaborated with cross-functional teams to deliver timely project releases, implementing Agile practices and ensuring client satisfaction through consistent communication and feedback.

## SKILLS

Python	Django	Flask	ReactJS
React Native	NodeJS	JavaScript	
TypeScript	NextJS	AWS	CI/CD
PostgreSQL	Devops	AI	MongoDB
MySQL	REST API	NestJS	Docker
Kubernetes	Laravel	ML	GraphQL
FastAPI	Redux	Redis	Celery
HTML5	CSS3	Golang	GIT
NLP			
PHP	Microservices	Github	

## EDUCATION

### Bachelor of Engineering in Computer Science and Engineering

#### Visvesvaraya Technological University (VTU)

2014 - 2017

### Diploma in Computer Science and Engineering

#### Department of Technical Education

2011 - 2014

## KEY ACHIEVEMENTS

#### Technical Leadership

Successfully led the Kassa and MyToni project from scratch, ensuring seamless collaboration and delivery with high team morale.

#### Problem Solving & Innovation

Built a scalable backend with Python and Django, integrated payment APIs, and optimized workflows in fintech platform.
